ABOUT THE COMPANY

- **360Techsys** is a full-spectrum **technology company** committed to delivering smart, scalable, and integrated digital solutions for businesses across industries. While our core strength lies in **ERP implementations** — particularly with platforms like ERPNext, SAP, and custom-built ERP portals — we also specialize in **web and mobile applications development, AI tools, eCommerce automation, data analytics, and API integrations.**
- We help organizations digitally transform operations, enhance productivity, and achieve sustainable growth. From implementing centralized ERP systems to building connected digital ecosystems, our solutions are designed to deliver real-world value and measurable results.
- At 360Techsys, **we don't just deliver code — we deliver systems that automate, inform, and scale businesses.** Whether you're a startup or an enterprise, our end-to-end services ensure your digital foundation is robust, efficient, and future-ready.

We don't just build software – we build systems that build smarter businesses.

Our Mission & Vision

Driven by purpose, focused on progress.
Building technology that empowers
businesses and shapes the future.

Mission

Our mission is to empower enterprises by building intelligent digital ecosystems that drive operational efficiency, foster sustainable scalability, and unlock long-term growth.

We envision a future where technology and AI-driven automation seamlessly integrate with business processes, enabling organizations to lead in an ever-evolving landscape.

Vision

Our vision is to deliver customized, scalable, and future-ready digital solutions that directly address complex real-world business challenges.

Through a combination of innovation, agility, and deep industry insight, we aim to transform how businesses operate—enhancing their productivity, decision-making, and competitive edge.

Innovation

We continuously explore new technologies to build smarter, future-ready solutions.

Reliability

We deliver robust, scalable, and dependable systems businesses can trust.

Customer-Centric Approach

We prioritize client success by delivering tailored solutions that solve real business problems.

Collaboration

We believe in strong partnerships and teamwork to achieve impactful results.

Growth & Scalability

We build solutions that evolve with your business and support long-term success.

Our Core Values

Our Core Services.

01

Enterprise Application Development

Custom software to automate processes, boost efficiency, and scale with your business.

02

ERP Implementation & Customization

End-to-end ERP deployment with custom modules, automation, and integrations.

03

Graphic Design & Digital Branding

Creative design for UI/UX, branding, product visuals, and marketing.

04

Web & Mobile App Development

Enterprise-grade apps built for performance, UX, and scalability.

05

Consultancy Services

Strategic IT consulting for digital transformation, ERP readiness, and process optimization.

06

API & Platform Integrations

Seamless integrations across eCommerce, ERP, courier, and payment systems.

07

Business Dev & Tech Partnerships

Collaborative growth through partnerships, lead generation, and global expansion.

08

Data-Driven Solutions & BI

Data-driven dashboards and reporting for strategic decisions.

AI Powered Solutions.

SaaS Product Development & AI Platforms

End-to-end development of scalable SaaS products and AI platforms from MVP to enterprise rollout.

01

Generative/Agentic AI Solutions

Custom solutions including AI assistants, chatbots, document intelligence, resume parsing, SQL/data chat, and content generation.

02

AI Integration with Enterprise Systems

Embedding AI capabilities into existing ERPs, CRMs, BI platforms, and operational tools—without disrupting current infrastructure.

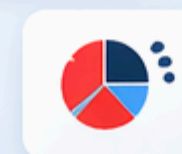

03

AI-Powered Business Automation

Design and deployment of intelligent, AI driven workflows that automate operations, decisions, and enterprise processes.

04

ERPNext Solutions.

Powerful modules. Seamless integration. Smarter business.

Tech We Work On.

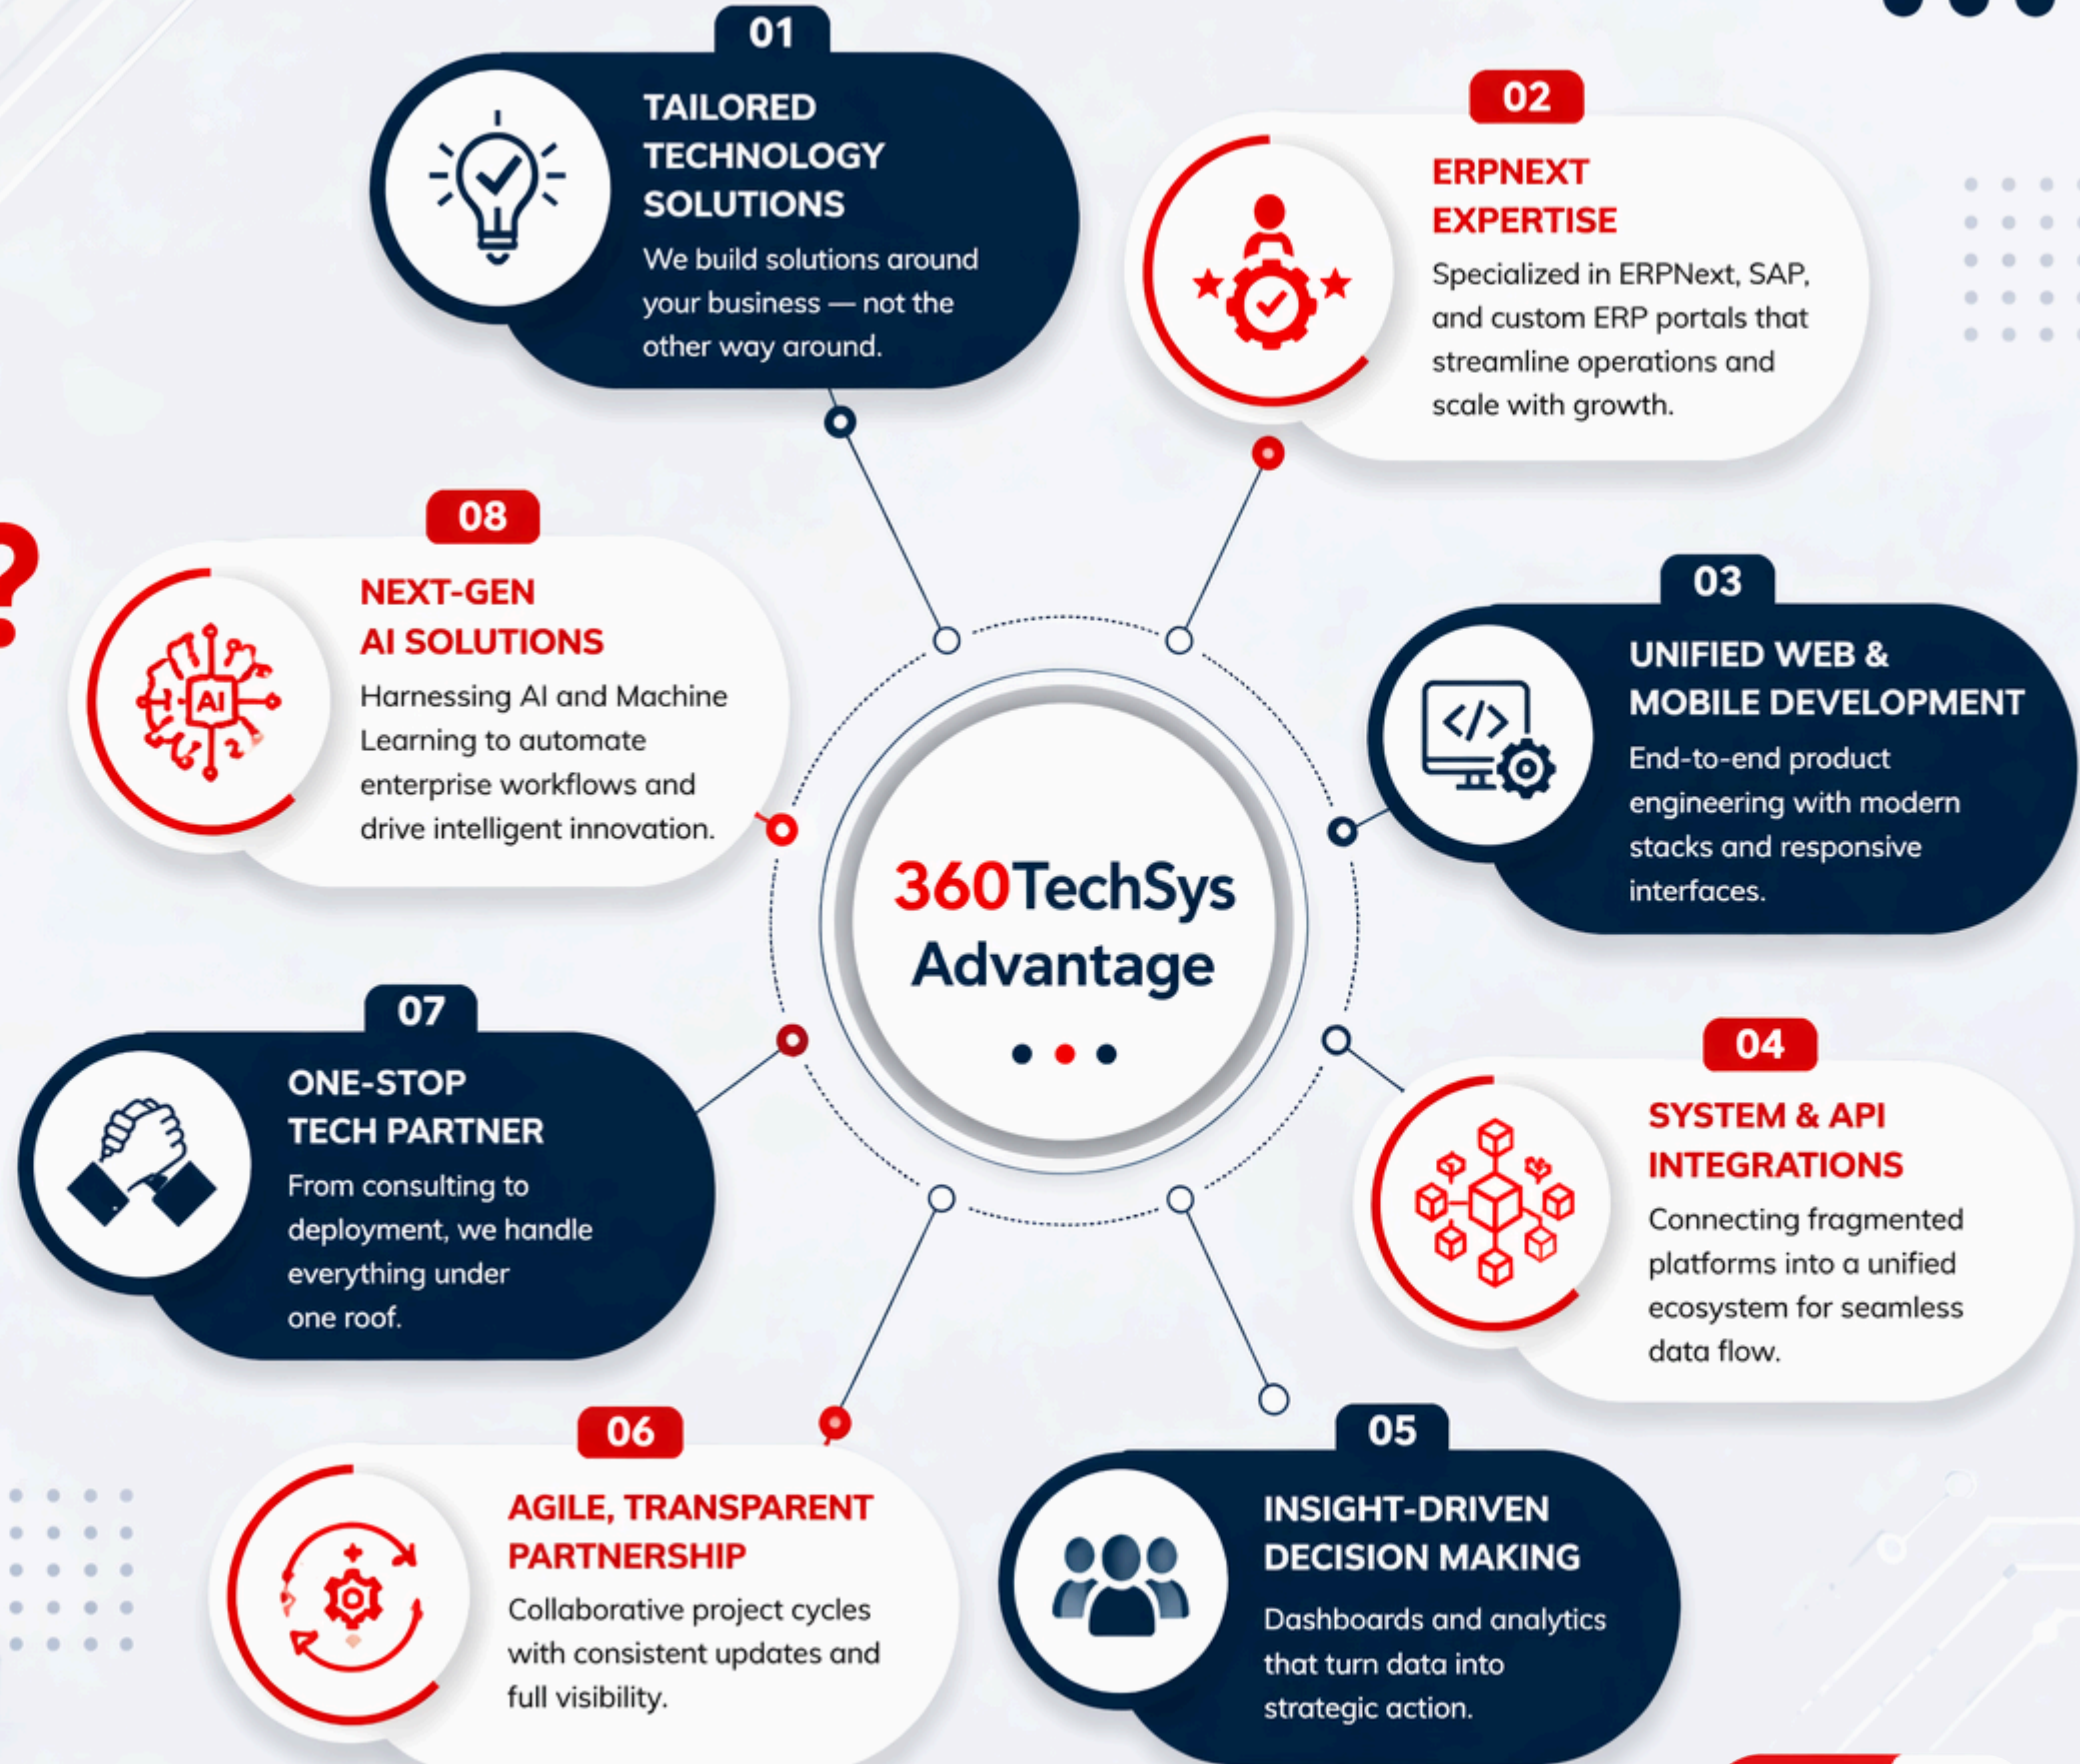

We use the best technology stack to deliver robust, scalable, and future-ready solutions for your business.

Why Choose Us?

We combine technology, expertise, and commitment to deliver solutions that drive real business impact and long-term growth.

Our Clients

Proud to partner with innovative businesses and organizations across industries. Their trust drives our excellence.

90+ More
Happy Clients

Work with us.

Flexible engagement models
designed to **fit your project needs.**

Project-based

We will set up a couple of calls and scope the project with you. Once done, we will get back to you with a fixed price bid and a schedule for relevant deliverables. This mostly works well for small projects with fleshed-out requirements.

01

Hourly

For product development with inherent uncertainty and evolving requirements, we suggest an hourly model. We only scope the next few sprints and you are billed by the number of hours spent by the team on your project.

02

Dedicated

If you are looking for a maintenance team or someone to manage day-to-day operations, this is the most cost-effective option for you. Hire part-time or full-time dedicated talent and get billed for them monthly.

03

90+ More
Happy Clients
